An Introduction to...

STAT MODELLER

Turning Data into Actions for Business Transformation

India | UK

Message from the Founder

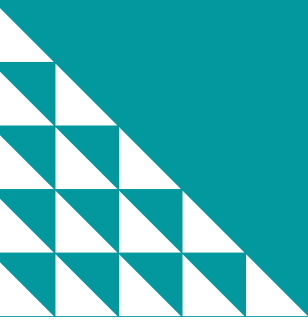

“Organizations don't fail from lack of effort — they fail from lack of discipline turning data into decisions, and decisions into results. At Stat Modeller, we combine Lean Six Sigma rigour with modern analytics and AI to deliver outcomes that last.”

Who We Are

Stat Modeller is an Operational Excellence, Analytics, and AI Consulting & Training firm headquartered in Vadodara, India, with a presence in the UK. Helping manufacturing, pharma, financial services, technology, and academia achieve measurable gains in performance and profitability.

Our Story

We started with Lean Six Sigma, helping manufacturers cut waste and defects. Analytics soon became the missing link that made those gains measurable and lasting. Today, we've trained 17,000+ professionals and delivered 200+ improvement projects across corporates, GCCs, Manufacturing, Pharmaceuticals and institutions.

Mission

Measurable performance improvement through disciplined analytics.

Vision

To be the most trusted analytics and operational excellence partner, globally.

01 DATA INTEGRITY

02 CLIENT COMMITMENT

03 PRACTICAL INNOVATION

04 CAPABILITY BUILDING

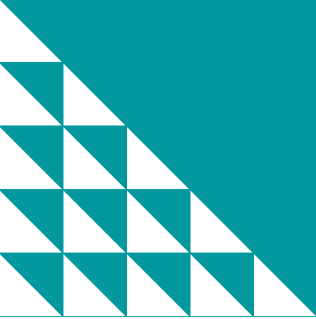

05 COLLABORATIVE SPIRIT

06 GLOBAL STANDARDS

Changeover Time Reduction via SMED

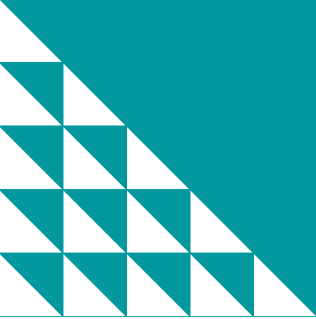

Challenge:

A pharma manufacturer faced excessive changeover time causing costly production downtime and lost batch capacity.

Solution:

Implemented SMED methodology to eliminate non-value added steps and streamline the entire changeover process.

GST Streamlining using Six Sigma Implementation

Challenge:

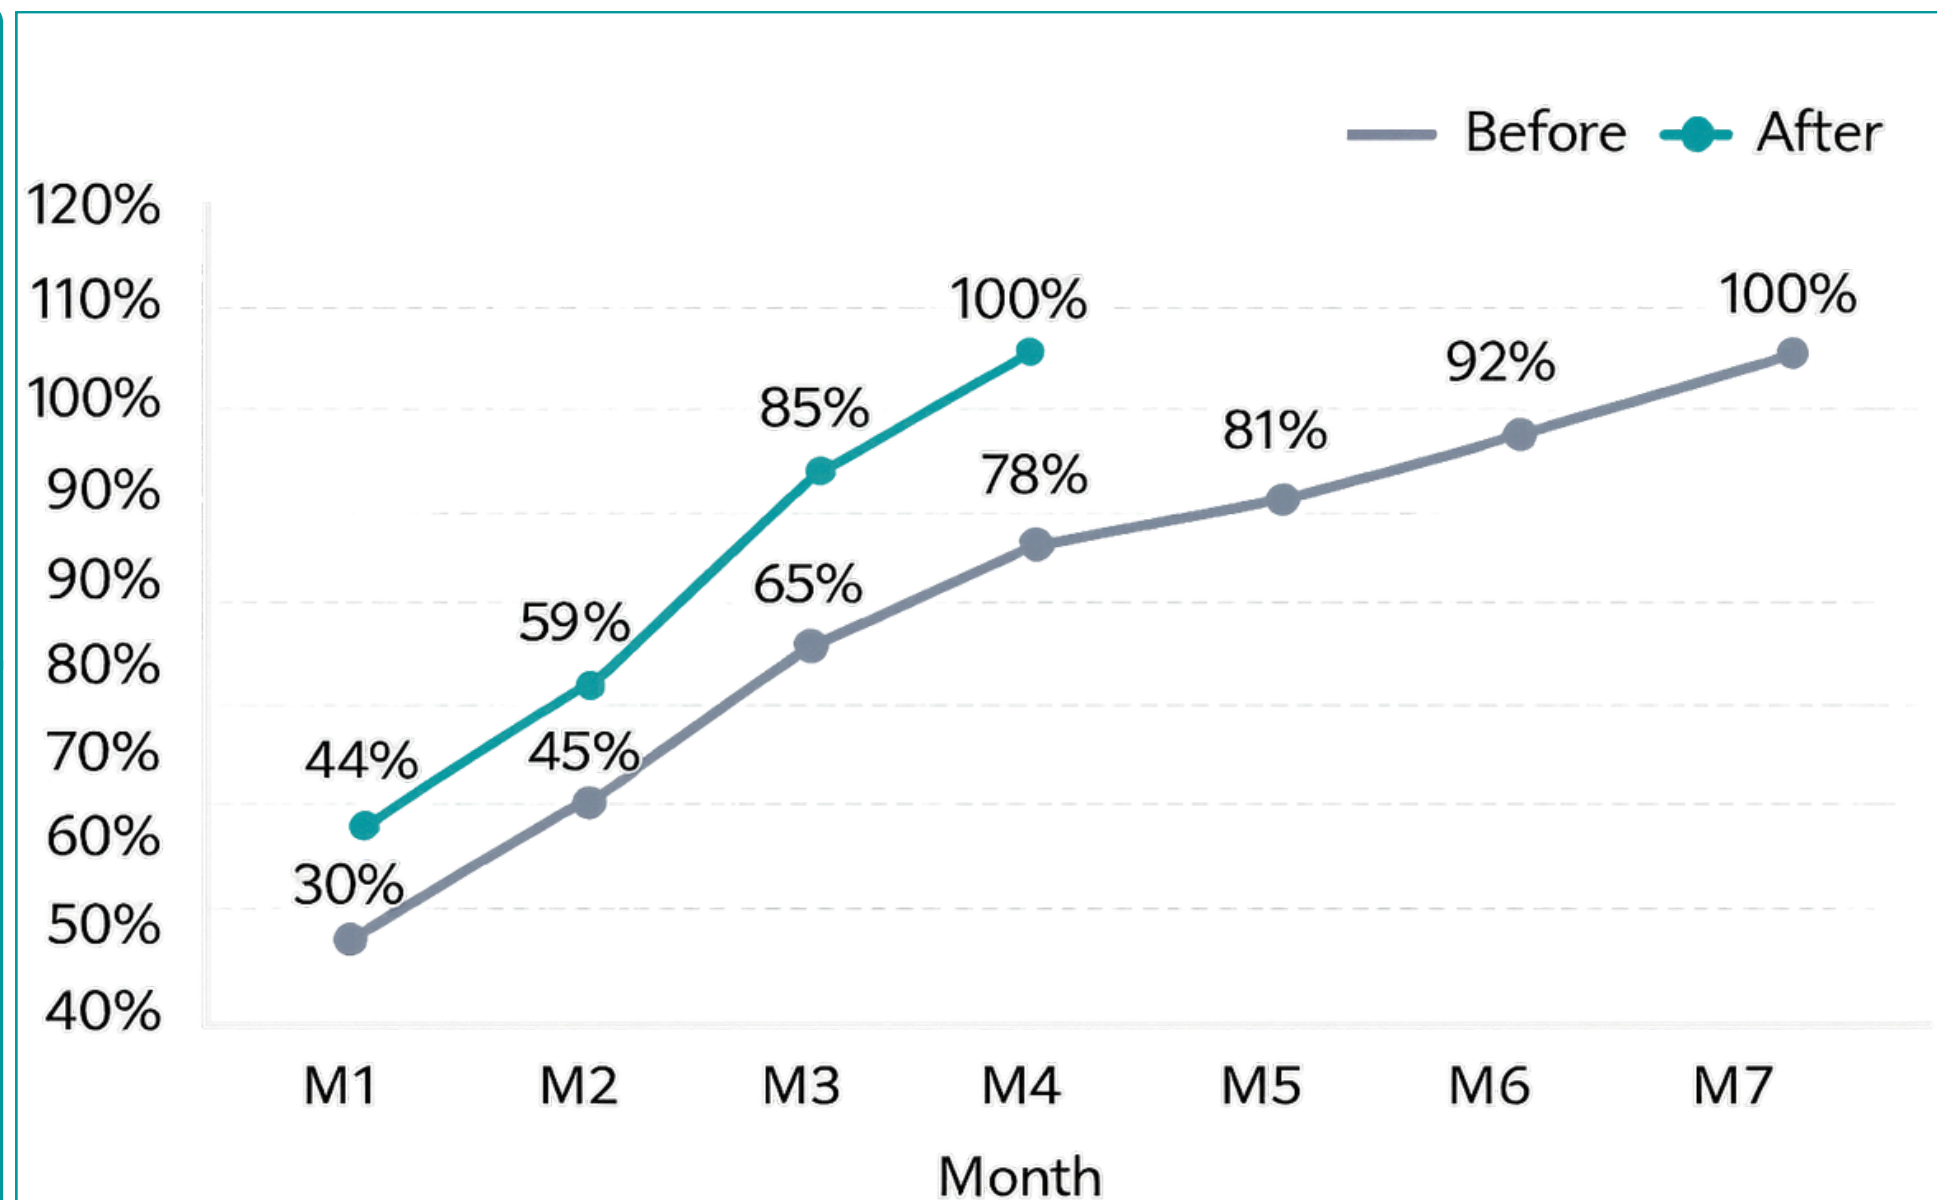

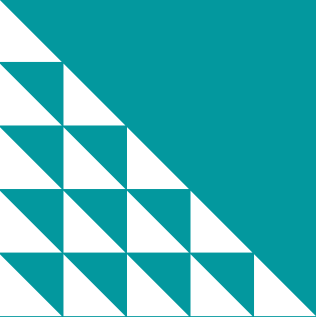

A shared services company had slow, error-prone GST processes impacting compliance accuracy and liquidity.

Solution:

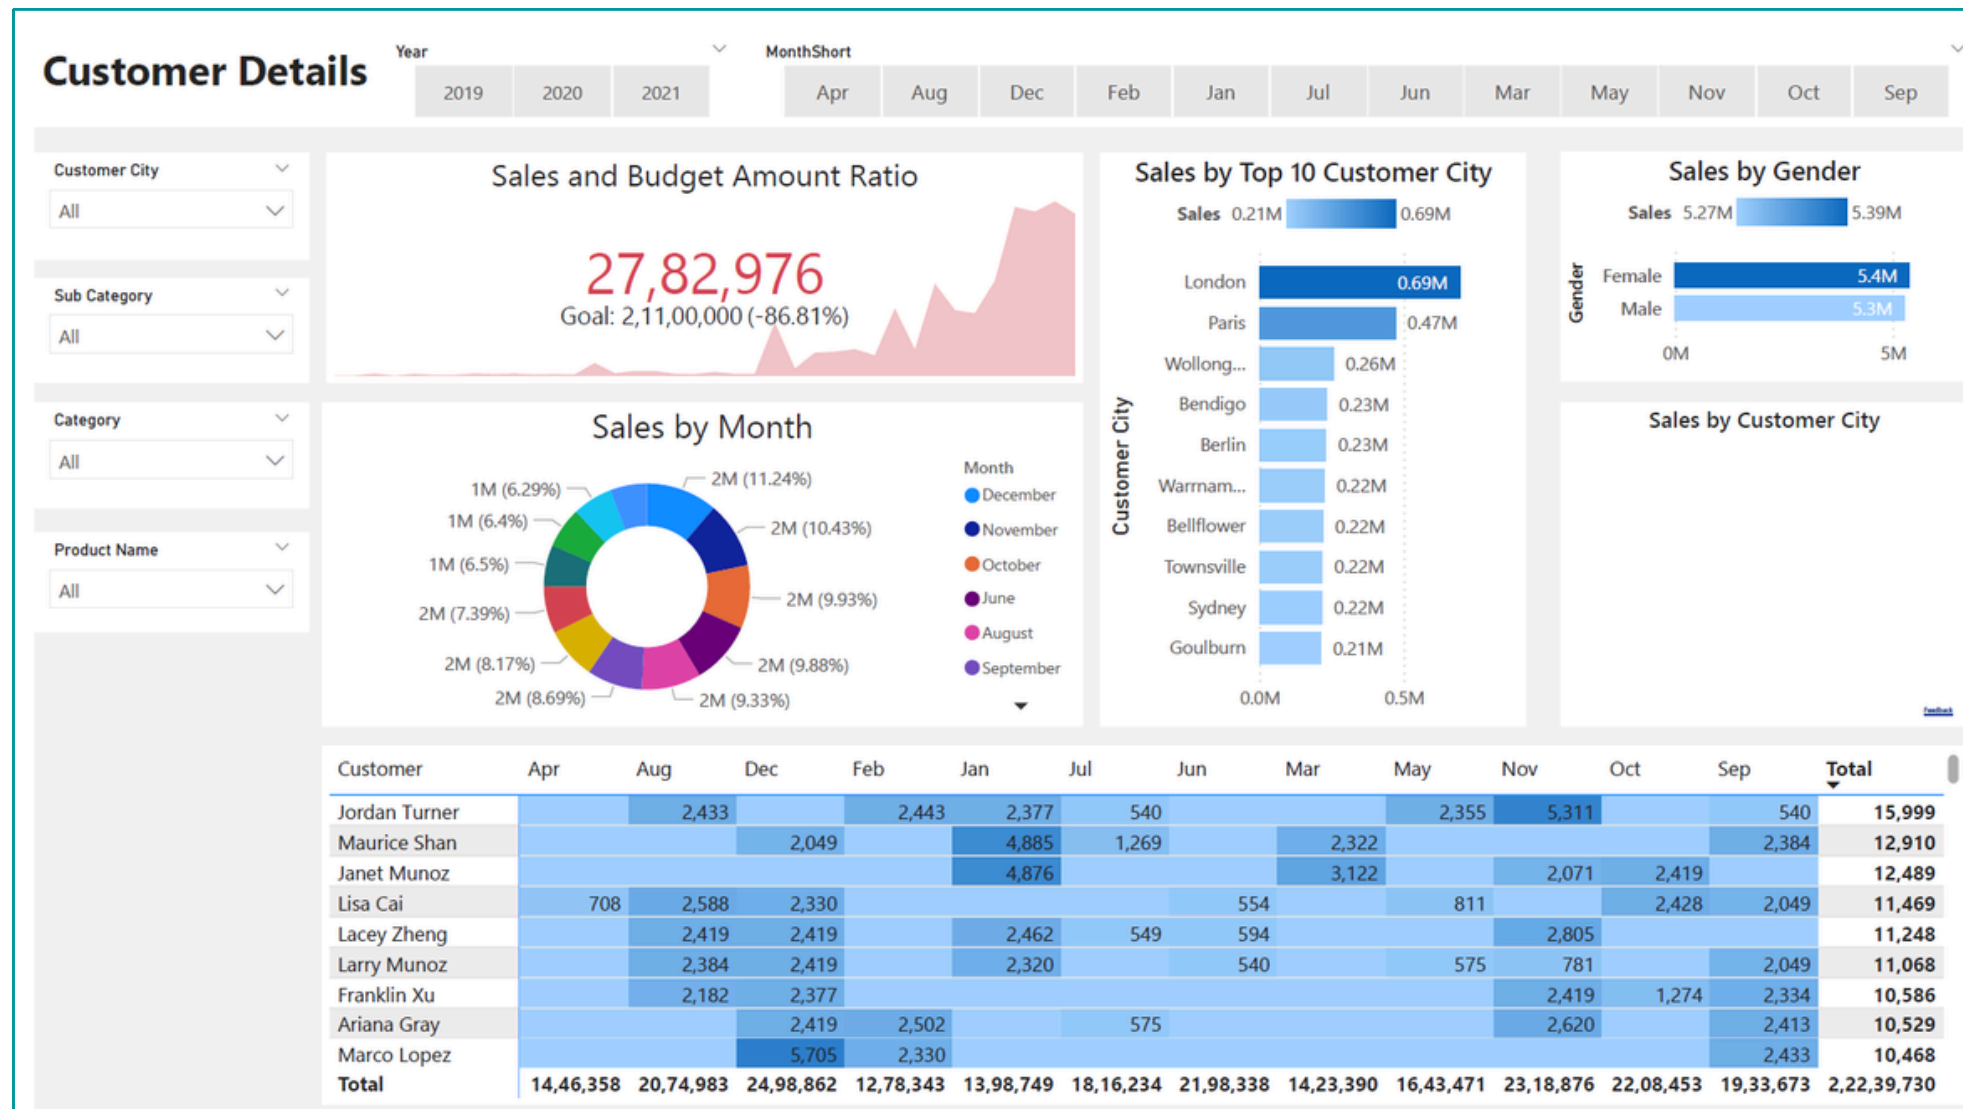

Applied Six Sigma DMAIC to map, analyse and redesign the GST workflow, reducing rework and errors.

Data Analytics KPI Tracking via Power BI

Challenge:

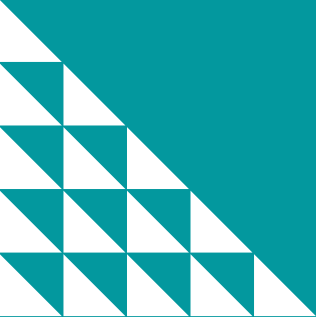

Client lacked real-time visibility into critical operational KPIs, leading to reactive decision-making and missed improvement opportunities.

Solution:

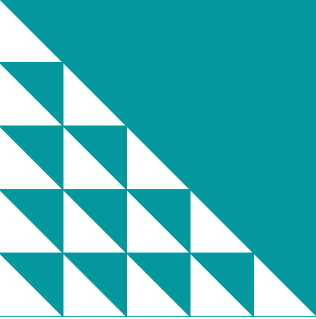

Built customised Power BI dashboards with drill-down views, trend alerts and real-time KPI tracking.

Our Esteemed Clients
